Project Name	AI Powered Debt Relief & Financial Recovery Platform
Maximum Marks	4 Marks

Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS • "I'm struggling to manage my loan repayments." • "I need a simple way to understand my financial health." • "I want the best debt settlement option without complicated calculations."	THINKS • "Will I ever become debt-free?" • "Can AI really suggest the best repayment strategy?" • "I hope this platform keeps my financial information secure."
PERSONA NAME JOSEFH Student/Learner	
DOES • Tracks loans and monthly EMIs. • Checks financial health reports regularly. • Uses AI recommendations before making repayment decisions.	FEELS • Worried about increasing debt. • Stressed due to financial obligations. • Relieved and confident after receiving personalized debt recovery suggestions.
